

Exact JobBOSS

Professional Services |
Consultant Biography**LOUIS
ECKENBRECHT,
CPA**

As an application and manufacturing consultant and certified public accountant, Louis Eckenbrecht combines ERP system implementation and consulting with accounting acumen.

What really sets him apart is his JobBOSS accounting expertise. Cost accounting and WIP are his training specialties. Louis's twelve years consulting also include a specialty in JobBOSS and EOL JobBOSS Cloud installs, upgrades and Access to SQL conversions.

- His talent for general troubleshooting and an ability to craft non-standard solutions make him a top software industry consultant.
- Louis's twenty-plus years in manufacturing—five years as a Machinist for machine tool builders and job shops and a stint as CFO and Operations Manager for a machine tool company—mean he steps into a customer's shoes and provides practical solutions.
- His accounting background includes several years as CFO and MIS Director for a commercial finance company developing operating and financial systems.
- Change management is another area of expertise. Louis ensures the smooth implementation of new organizational structures and change; he understands today's constantly evolving business environment and helps customers do the same.
- Prior to his consulting career, Louis was CFO and General Manager for Gital America Inc., a U.S. subsidiary of European machine tool manufacturer Gildemeister Italiana.
- Along with his CPA (since 1982), Louis's technical expertise and certifications include Microsoft Platforms, QuickBooks, Great Plains Dynamics/Navision, Peachtree, formal SAP training and Crystal Reports.
- He has a B. S. Commerce, DePaul University, with a major in accounting.

What really sets him apart is his JobBOSS accounting expertise."
