Consultant Biography****EDMOND
MELNYCHUK**

Edmond Melnychuk has more than twenty years' experience in the software industry, and spent the last fourteen as an Exact manufacturing and application consultant and developer. His impressive track record includes creative solutions, data migrations and recovery and repair of databases.

He has performed countless JobBOSS installs, upgrades and Access to SQL conversions. A real Renaissance man, Edmond has worked in multiple industries including art, design, manufacturing, video, animation and construction over the course of his career.

- He specializes in JobBOSS installations, upgrades and migrations, as well as Access to SQL database conversions and Synergy implementations.
- A sought after resource for on-site solutions, Edmond also excels at teaching. His Exact courses include JobBOSS Training, Crystal Reporting and Data Mining.
- Edmond likes challenges. He recently migrated thirteen years of a customer's detailed accounting history from Vista to JobBOSS and balanced it to the penny.
- As an independent consultant/developer, he has led consultant teams in the U.S., Canada and the Philippines working as a principal of Neptune Networking, Inc., Second Person Software, Inc., and Colour Media, Inc.
- Though Edmond has completed many formal courses in both software and environmental systems, he says, "I am primarily educated by working in the field."

A real Renaissance man, Edmond has worked in multiple industries including art, design, manufacturing, video, animation and construction."
