Consultant Biography

JOAN BERNING

Senior Manufacturing Consultant,
Exact JobBOSS

Joan Berning is a manufacturing consultant for Exact JobBOSS Professional Services. She provides consulting and training services in the following key areas:

- JobBOSS Training
- Information Technology
- Operations Management
- Internal Auditing
- Custom Reporting
- Effective Job Scheduling

Exact JobBOSS customers benefit from Joan's considerable manufacturing experience and her sharp focus on streamlining operations and incorporating accountability, discipline, accuracy, and consistency. She is a specialist in unique and difficult implementations and approaches these challenging assignments with expertise, fortitude, and a sense of humor.

Joan, an independent contractor, is also an experienced trainer. Throughout her career, she has trained more than 2,000 individuals on multiple software platforms. She has the ability to simplify the essentials of complex software systems and communicate them to audiences ranging from upper-level management to floorlevel employees. As a result, all levels of employees learn to effectively use

JobBOSS for maximum productivity. One of Joan's many successes as an Exact JobBOSS consultant was assisting a California coating/ processing business in becoming AS9100B certified.

The company passed with 95%, an excellent score, and attributes its outstanding performance to JobBOSS and its ability to keep the company organized. Joan dedicated her time over a period of 12 months to this effort. Joan has 25 years of experience with cutting-edge software systems, meeting the needs of both small and medium-sized manufacturing companies. During her career, she has been responsible for evaluating, implementing, and refining operating systems and selecting, purchasing, installing, configuring, and updating both computer hardware and software applications. Joan has managed essential security solutions, including firewall, anti-virus, and intrusion detection systems as well as server and security audits.

Joan's in-depth knowledge of various manufacturing functions evolved through a range of assignments in her career, beginning as a shop employee in 1978 with a summer job between college semesters. Her career progressed into positions as office manager, procurement specialist, master scheduler, and MIS manager.
