# LEARNING PASS — THE BEST ROI

Provide ongoing learning opportunities to empower your organization to sustain an efficient and effective workforce.

The Learning Pass training plan from Exact JobBOSS allows you to send any users, to instructor-led online courses, any number of times, for one full year. Each class is interactive, led by an experienced instructor who will assist you during lab exercises, and answer all of your questions. Classes are restricted to 12 attendees per class to allow for the best instructor to attendee ratio.
